

## SETUP MOBILE APPLICATION ENVIRONMENT

### ENABLE LOCATION SERVICES TO THE APPLICATION

In the future, it will be possible for the user to enable location services, so that the application can automatically inform the user about the nearest event. Location services can be enabled for the whole application in the settings of the phone.

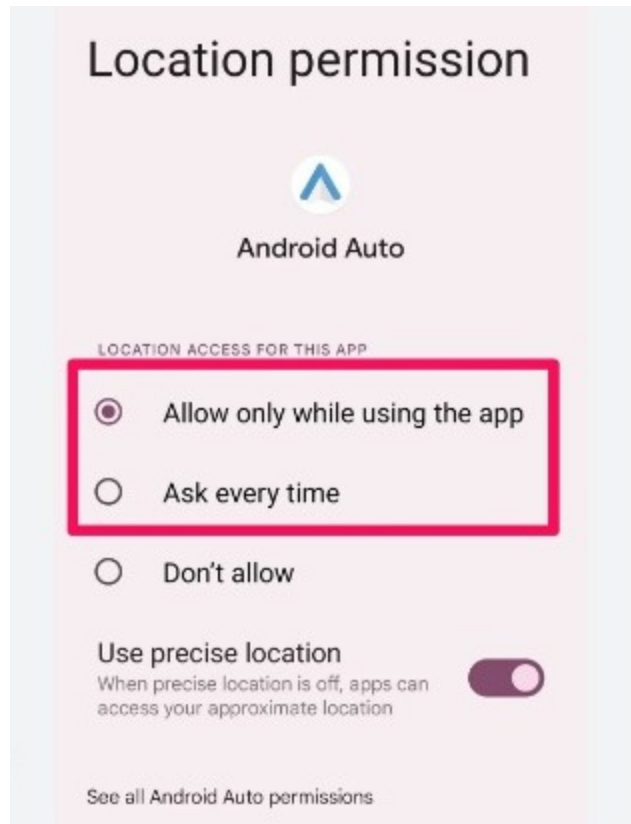

#### **CODE:**

```
private void getLocationPermission() {
    Log.d(TAG, "getLocationPermission: getting location
permissions");
    String[] permissions =
{Manifest.permission.ACCESS_FINE_LOCATION,
    Manifest.permission.ACCESS_COARSE_LOCATION};

    if
(ContextCompat.checkSelfPermission(this.getApplicationContext(),
    FINE_LOCATION) ==
PackageManager.PERMISSION_GRANTED) {
        if
(ContextCompat.checkSelfPermission(this.getApplicationContext(),
    COURSE_LOCATION) ==
PackageManager.PERMISSION_GRANTED) {
```

```
        mLocationPermissionsGranted = true;
        initMap();
    } else {
        ActivityCompat.requestPermissions(this,
            permissions,
            LOCATION_PERMISSION_REQUEST_CODE);
    }
} else {
    ActivityCompat.requestPermissions(this,
        permissions,
        LOCATION_PERMISSION_REQUEST_CODE);
}
}

// HANDLE REQUEST PERMISSION RESULT
// ONCE
```
